keep it Simple, Stupid
from the beginning

- Less elements
- Less layers

- Less inputs

Minimum Requirement

- ✓ stand-alone

  ✗ multi-user

- ✓ mandatory ⟶ must have

  ✗ advanced

- Iterate / Evolution

For developers:

Can other developers understand my UI immediately?

Did I really tell other developers every single thing he need to put in the Tab?

For users:

Is it intuitive? Do they need to learn?

Food	Expire
milk	27 Oct
apple	30 Oct
beef	1 Nov
egg	4 Nov

Previous 3 pages are minimum functionality pages.

We can easily add functions into them.

For example, the main page (next slide):

Food   Expire

Food		Expire
milk	🥛	27 Oct
apple	🍎	30 Oct
beef	🥩	1 Nov
egg		4 Nov

Enter name 🔍

Enter date 📅 24

+ Add
